**MRT2310 Economics and Theology**

**Friday, 5<sup>th</sup> February**

**10.30a.m. – 11.30a.m**

---

**Discuss ONE of the following Statements:**

- 1 Adapting to change is not a sufficiently adequate principle for showing the ethical dimension of economic restructuring.
- 2 Economic activity, particularly business, generally involves competition but what is ethically required and theologically presupposed is that competition be fair, conducive to relationships of trust and promotes the well-being of each other.
- 3 The priority of work in economic processes has ethical and theological implications.
